

Wage and Hour Division, Labor

§ 794.105

Where an enterprise is exclusively engaged in the wholesale or bulk distribution of petroleum products and meets all the other requirements of section 7(b)(3), all of its employees who are paid for their hours of work in accordance with section 6 of the Act and the special pay provisions of section 7(b)(3) (see § 778.602 of this chapter and §§ 794.135 through 794.136) will be exempt from the overtime pay requirements of the Act under the principles stated above. What products are included in the term “petroleum products” and what constitutes the “bulk distribution” of such products within the meaning of section 7(b)(3) are discussed in §§ 794.132 through 794.133.

§ 794.104 Enterprises engaged in described distribution and in other activities.

An enterprise may be engaged in the wholesale or bulk distribution of petroleum products, within the meaning of section 7(b)(3), without being exclusively so engaged. Such engagement may be only one of the several related activities, performed through unified operation or common control for a common business purpose, which constitute the enterprise (see § 794.106) under section 3(r) of the Act. If engaging in such distribution is a regular and significant part of its business, an enterprise which meets the other tests for exception under section 7(b)(3) will be relieved of overtime pay obligations with respect to employment of its employees in such distribution activities, in accordance with the intended scope (see § 794.101) of the exemption. The same will be true with respect to employment of its employees in those related activities which are customarily performed as an incident to or in conjunction with the wholesale or bulk distribution of petroleum products in the enterprises of the industry engaged in such distribution. There is no requirement that engaging in such activities constitute any particular percentage of the enterprises's business. However, in the case of an enterprise engaged in other activities as well as in the wholesale or bulk distribution of petroleum products (including related activities customarily performed in the enterprises of the industry as an inci-

dent thereto or in conjunction therewith), an employee employed in such other activities of the enterprise is not engaged in employment which the exemption was intended to reach (see § 794.101). Such an employee is not brought within the exemption by virtue of the fact that the enterprise by which he is employed is engaged with other employees in the distribution activities described in section 7(b)(3). This accords with the judicial construction of other exemptions in the Act which are similarly worded. See *Connecticut Co. v. Walling*, 154 F. 2d 522, Certiorari denied, 329 U.S. 667; *Northwest Airlines v. Jackson*, 185 F. 2d 74; *Davis v. Goodman Lumber Co.*, 133 F. 2d 52; *Fleming v. Swift & Co.*, 41 F. Supp. 825, aff'd 131 F. 2d 249.

§ 794.105 Other requirements for exemption.

The limited overtime pay exemption provided by section 7(b)(3) applies to any employee compensated in accordance with its terms who is “employed * * * by an * * * enterprise * * * engaged in the wholesale or bulk distribution of petroleum products” as explained in §§ 794.103 through 794.104 if the enterprise which employs him meets all of the following requirements: (a) It is a “local” enterprise; (b) it is “independently owned and controlled”; (c) it has an annual gross volume of sales of less than \$1 million exclusive of excise taxes; (d) it makes more than 75 percent of its annual dollar volume of sales within the State in which it is located; and (e) not more than 25 percent of such annual dollar volume of sales is to customers who are engaged in the bulk distribution of petroleum products for resale. In order to determine whether all these requirements are met, it is necessary to know what constitutes the “enterprise” to which reference is made, the meaning of “the wholesale or bulk distribution of petroleum products” in which engagement is required as a prerequisite to exemption, what is meant by a “local” enterprise and what characterizes it as “independently owned and controlled”, and the criteria for application of the dollar volume tests. These matters will be discussed in some detail in the sections following.
